I am available after 4 today and tomorrow any time after 0930

I am not actually working with Noemi on this. We are meeting with California next week on Excide and the notion came up of using a BF job training center to train local Vernon residents in hazmat clean up. So we wanted to know what we might offer to California.

Hi Dan, Can you let me know when you are available for me to quickly stop by? I received a call from Roger Knitz at DTSC regarding job training related to Excide. I know you have been working with Noemi on this. I would like your feedback on how to respond to Roger as "One EPA." Thanks, Nova
